Orgonite

(or-go-nite)

"If you could eliminate certain outside frequencies that interfered with our bodies, we would have a greater resistance toward disease"

- Nikola Tesla

African Goddess Curated handcrafts Orgonite by casting Metal Shavings or Powders (Copper, Brass & Aluminum) in UV Stable Resin along with ORMUS Powder, Quartz Crystal, Selenite, Lepidolite, Black Tourmaline & Shungite.

Orgonite is a man-made metaphysical substance which has a myriad of benefits Including:

- Protection from EMF/EMR Radiation
- Purifies The Atmosphere
- Better Sleep With More Vivid Dreams
- Gives A General Sense Of Spiritual & Physical Well-Being
- Improved Relationships
- Cleaner Structured Water
- Accelerated Plant Growth

How To Program & Care For Orgonite

Programming Orgonite

Find a quiet serene spot in a Garden, stand Barefoot (Ground) in Natural Light.

Hold the Orgonite in your left hand, relax into your center and link to your Heart, feel your Heart and feel Love in your Heart.

Say aloud, “I dedicate this Orgonite to the highest good of ALL. I ask that it be used in the highest vibration of Love and Light.”

Visualize and feel your desired intention (e.g. Abundance) whilst holding the Orgonite and use your Heart to do this.

The Heart is what makes things happen.

Finish by saying aloud: “I dedicate this Orgonite to [your desired intention]”

Cleaning Orgonite

Cleaning your Orgonite is effortless as it is a self-cleansing energy tool.

However, if it becomes dusty, simply wash it with dishwashing liquid and rinse under tepid water.

You can polish it back to its original luster using a Microfiber Cloth.

Please note the following important warning:

We advise against placing Orgonite inside of drinking water, despite the fact that our Orgonite is handcrafted from UV stable, Food Safe Epoxy Resin.

Should you have any further questions or need assistance, don't hesitate to contact us. We're here to support you on your sacred journey to wellness and energy optimization.

Discovering the Energy Vortex

In this experiment, we can clearly observe the Energy Vortex generated by Orgonite as scalar energy pulses through the water beneath.

To conduct the test, we added blue food coloring to stagnant (RO3) water in two beer glasses and positioned them atop:

Left: An Orgonite Tower Buster & Right: An Orgonite Charging Plate. These were then placed in a freezer overnight. The energy vortex effectively drew the food coloring out of the water! This is evident in the image at the bottom, where the frozen water is actively melting in the basin.

What Does This Imply?

In simple terms, it indicates that you are consuming water that is positively charged and thus structured. This aligns with the experiments conducted by Masaru Emoto, which demonstrated how vibrations influence water through words, prayers, music and the surrounding environment. Orgonite clearly has a tangible effect.

Given that human beings are composed of approximately 70% water, it is crucial for us to drink high-quality structured water!

To enjoy positively charged, structured, water throughout the day, simply place your water receptacle of choice atop an Orgonite Charging Plate.
