

ARGYLE PINK DIAMOND “APPLE” MASTERPIECE PENDANT

Creator: Kumar Gems

Category: Rare Collectible Jewellery Art

Type: Pendant / Objet d'Art

Certification: International Lab Certified Argyle Pink Diamonds

Record: Recognized by Indian Book of Records

Description:

An exceptional, museum-grade jewellery artwork—an Apple-shaped pendant crafted with authentic Argyle Pink Diamonds, among the rarest treasures on earth. The Argyle diamonds, mined from the legendary Argyle Mine in Kimberley, Western Australia, are over 1.58 billion years old. With the mine's closure in November 2020, the global supply has permanently ended, making this piece historically and financially significant.

Highlight Features:

- Total Argyle Pink Diamonds: 1396 pcs
- Total Diamond Weight: 9.36 carats
- Metal: 18KT Rose Gold
- Gross Metal Weight: 29.500 grams
- Design: Apple-shaped artistic creation
- Origin: Argyle Diamond Mine (Australia)
- Uniqueness: No identical piece exists globally
- Recognition: Listed in Indian Book of Records

Investment Value of Argyle Pink Diamonds:

The closure of the Argyle mine has created unprecedented rarity. No new mine has been found that can replicate the quality or color of Argyle pink diamonds. Each stone is unique, making this pendant not only a luxury adornment but an investment-grade asset for elite collectors.
